

# Luke | Full Stack Software Developer

 @gmail.com | (44) 07  5 | [Portfolio](#) | [GitHub](#)

## ABOUT ME

I am a proactive, enthusiastic, and resilient Full Stack Software Developer with React, Node.js, and MongoDB expertise. My passion lies in building innovative and user-friendly web applications. I honed my logical thinking and creative problem-solving skills during my previous career as a professional theatre actor.

I seek to join a company that positively impacts society through sustainable practices or social responsibility. I am excited to work with like-minded individuals to contribute to building a happy community and workplace.

## PROJECTS

**Japanese Learning RPG App** <https://github.com/SimpleLuke/japanese-learning-RPG>

- Used **React**, **Redux toolkit** and **Tailwind** for frontend, and **Node.js**, **Express.js** and **MongoDB** for backend.
- Testing with **Cypress** (Component, E2E testing) and **Jest** (Unit testing).

**Crwn Clothing E-commerce Platform** <https://github.com/SimpleLuke/crwn-clothing>

- Built with **React**, **Redux** and **Styled-Components**.
- Integrated with **Stripe** for payment and **firebase** for data management and authentication.

## WORK EXPERIENCE
